Meet the only mesher you'll need

**The Rosenberg Skin Mesher
from Exsurco® Medical.**

versatility

Eliminate delays in the OR thanks to:

- Adjustable dial with pre-set capabilities and six ratio settings
- Single, sterile carrier for care in graft handling
- Ratio-changing capabilities during surgeries
- Releasing net that prevents meshed skin from adhering to cutting blades

reliability

Reduce mesher repair costs, SKUs, and service interruptions thanks to:

- State-of-the-art construction
- Durable design, which was built to withstand the rigorous OR environment

efficiency

Because you'll only need one skin mesher per procedure, there is:

- No need to carry various ratio meshers
- No need to order additional parts
